Why we changed from traditional teaching?

- We weren't meeting our school vision of 21st century learning
- We were seeing only a small shift in our results each year

How we changed

Previous Year 9 programme

- 10 Year 9 Whanau based classes, 2 extension classes (27 Learners)
- English, Maths, Science, Social Science twice a week, 200 minutes.
- Physical Education once a week, 100 minutes
- Very little communication between Learning Areas & what Learning is covered
- Reports given twice a year

Year 9 Authentic Learning

- 5 Year 9 Whanau based classes (64 Learners)
- 5 core subjects English, Maths, Science, Social Science and Health & PE through integrated learning, 800 minutes a week
- Team teaching environment, 4 Learning Leaders from different Learning Areas. 3 in the classroom at all times.
- Twice a week, 200 minutes a literacy and numeracy specialist will work with Learners
- Reporting is done live using google, Learning progress journal

What I know after two terms

Successes

- Improved attendance rates at Year 9
- Better holistic view of each Learner
- Learners have a deeper understanding of where they are at and what are their next steps
- Greater connections with Learners
- Better consistency for our Learners – expectations and Learning Strategies

Difficulties

- Getting parents / caregivers involved in LPJ feedback
- Staff – carrying their workload in a team teaching environment
